

What is considered to be a mistake?

Net strokes

Penalty points - calculating

(H.Ú.)

(T.B.)

► **Gross strokes minus Penalty points =**

Net strokes

(Č.Ú.)

- ▶ The number of strokes is done on the handout
- ▶ Count all strokes
- ▶ Extra strokes are added, missing strokes are deducted
- ▶ The number of extra strokes are appointed by the sign +
- ▶ The number of missing strokes are appointed by the the sign - (Write the signs on the left margin of the line. Summarise the strokes under the written text)

- ▶ The gross strokes are determined according to the last fully written line of the original by adding the strokes from the next unfinished line of the original. The number of gross strokes also includes a summary of the mutual counting of omitted and additionally written strokes
- ▶ Each mistake is penalized with 50 penalty points (in the race), the lesson with 10 penalty points
- ▶ Penalty points = each mistake= 50 or 10 points are deducted from the gross strokes, it means from all written strokes.

Counting the strokes

- ▶ **One stroke:** lowercase letters, one letter- not capital one, signs and marks written without a shifter, space, enter are counted per stroke;
- ▶ **Two strikes:** capital letters, signs and marks, as well as numbers and numbers written with the shift key;
- ▶ **Three strikes:** capital letters with accute (dlžňom);
- ▶ **Four strikes:** capital letters with breve; (mäkčeňom)
- ▶ **the number of strokes in numbers** is determined by the number of digits to which two strokes are added (due to the minimum number of numerical data in the texts, the general principle of writing numbers using a shifter lock applies);

What is considered to be a mistake?

- ▶ missing, additionally written, incorrect character - at most one error in a word;
- ▶ character confusion - at most one mistake in a word;
- ▶ words confusion - at most one mistake for the group;
- ▶ missing, extra written or replaced word;
- ▶ missing or additionally written continuous group of words - at most one error per group;

WRONG!

- ▶ missing, repeated, or swapped line - up to one error per line
- ▶ the use of the automatic function of correcting lowercase letters to uppercase letters at the beginning of sentences when writing by mechanical line spacing - at most one error in writing;
- ▶ with a combination of errors, each type of error is counted separately except for the combination of errors in the word (multiple errors in a word are counted as one error, regardless of the number of strokes in it).

Calculation of written strokes

- ▶ the error in the last 10 strokes is not counted, the counting of strokes ends at the last correct stroke before this error;
- ▶ in unclear cases, the error is decided by the chairman of the competition committee, in class by the teacher;
- ▶ the number of net strokes is calculated as: penalty points (number of errors x 50 or x 10, respectively) are deducted from the number of gross strokes. The percentage of errors is calculated as the percentage of the number of errors in the number of gross strokes

- ▶ the rankings of students is determined by the highest number of net strokes per minute within the limit of the percentage of errors. The failure of net strokes 270 or exceeding the limit of 0.25% of errors results in the exclusion of the student from the competition and non-inclusion in the result list
- ▶ The rankings of the competitors is determined by the number of net strokes per minute. If the competitors have the same number of net strokes per minute, the order will be decided by a smaller number of errors.

- In the result list there will be stated: name and surname of the student, name and seat of the school without postal code, year of study, founder, gross strokes in 10 minutes, number of errors, percentage of errors, net strokes per minute.
- The diploma indicates the location, the number of net strokes per minute and the percentage of accuracy, e.g. 99.75%
